

Acts of Service

While I thought of a long list of acts of service I *wished* I could do for you; make you endless cups of tea, help organize your bookshelves (with permission), do chores, plan little library adventures, etc. With each thought, the distance crept in to remind me of my inability to do such small gestures. However, I was certain there would always be one act which allows me to express my care. The occasion felt so special I needed to not only create a playlist, but a mixtape, CD and all!
